Abbreviations & Notes

K — knit · **P** — purl · **Sl** — slip · **st (sts)** — stitch (stitches) · **pat** — pattern · **rep** — repeat · **cn** — cable needle · **RS / WS** — right / wrong side

4-st LC — Sl 2 to cn and hold to *front*, k2, k2 from cn

Each row is 50 sts: a 5-st seed-stitch edge, the 40-st traveling cable panel, and a 5-st seed-stitch edge. The grey text at each end of a row is the seed-stitch edge; the cable panel sits between the | marks. `*...; rep from * 6 times` = work the starred sequence 6 times across the 40-st panel.

The panel is a multiple of 6 sts + 4 (40 = 6 repeats + 4). Stitch count is **50 sts** on every row; there are no increases or decreases, so if a count comes out wrong, a cable cross has picked up the wrong number of stitches.

Traveling Cable Pattern

Reps 1–14 are identical, so Rows 1–16 are listed once: work them 14 times, and tick a numbered box below the table after each full pass. Keep the first and last 5 sts in seed st and the centre 40 sts in traveling cable pat, repeating Rows 1–16, until the piece measures approx 34"/86.5 cm from the cast-on edge, ending with cable pat Row 7. At the book's gauge (28 rows = 4") that is 14 full repeats plus Rows 1–7 (Rep 15 below, about 33½"). Measure before starting the top border; if you are short, carry on through Row 16 and another Rows 1–7. The book prints the edge sts only for Row 1; WS rows use the same seed-st form as border Row 2.
