

Building Block #2

A knitting chart is a graph with symbols representing the pattern stitches. Charts are a simple way to convey knitting directions while providing the knitter with a visual cue to the finished design. It is nearly impossible to find a current publication that does not use this handy tool.

Each square in a chart represents a stitch. The numbers at the top of the chart represent each stitch in the repeat. The numbers on the right hand side of the chart are the right side rows. The numbers on the left hand side of the chart are the wrong side rows.

Charts are read from bottom to top, moving right to left on right side rows and left to right on wrong side rows. It is important to note that a chart shows the stitches as they appear from the right side of the fabric. In a flat knitting chart, as used here, the symbols have two meanings - one for working the stitch on the right side row and another for working the stitch on the wrong side row.

For this chart, begin with Row 1, reading from right to left. Row 1 is worked as k1, p8, k1, repeating these 10 stitches to the end of the body. Row 2, reading from left to right, is worked as p1, k8, p1, repeating these 10 stitches to the end of the body. The remaining rows are left for you to decipher! Once you get the knack of decoding charts, a whole new world of patterns will be open to you.

Charts

Bottom Border

Cast on 48 stitches using the Long Tail Cast On method.

Begin seed stitch as follows:

Row 1: *K1, p1; repeat from *.

Row 2: *P1, k1; repeat from *.

Work these 2 rows for a total of 6 rows.

Body

Maintain seed stitch over first and last 4 stitches of every row while working design. Work chart (see below) over 40 center stitches of Body. The 10 stitches in the chart will be repeated 4 times in each row.

Work all 8 rows of the chart 7 times, ending last repeat after **Row 8**.

Top Border

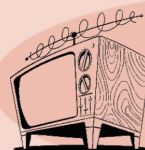

Work 5 rows of seed stitch as described in Bottom Border, ending after Row 1.

Bind off in pattern.

	10	9	8	7	6	5	4	3	2	1	
8					●	●					
					●	●					7
6				●	●	●	●				
				●	●	●	●				5
4			●	●	●	●	●	●			
			●	●	●	●	●	●			3
2		●	●	●	●	●	●	●	●		
		●	●	●	●	●	●	●	●		1

□ Knit on Right Side (odd # rows)
Purl on Wrong Side (even # rows)

● Purl on Right Side (odd # rows)
Knit on Wrong Side (even # rows)

Tips & Techniques

TIP: The stitches in the wrong side rows of this design are the exact opposite of the stitches in the preceding right side row. Simply work the stitches in the wrong side rows as they present themselves — knit every knit stitch and purl every purl stitch.
